

**FREE
LIFE COACHING**

Congratulations

We're delighted to offer you a **FREE "Life Coaching" session** for either yourself or one of your family members who live in the Geelong area.

In sport, most athletes rely on the input of a coach to help bring out the best in them, someone who can come alongside and provide wisdom and guidance when needed as they go for goals in their chosen sport.

In other areas of our lives like our relationships, our finances, work or career path, our health and wellbeing etc, many people already enjoy a balanced and healthy life.

The area that many people neglect to get some coaching on is the **spiritual** side of life, and that's what we're offering to help you address by providing some FREE coaching.

You'll be amazed what a difference it can make in your life if you'll just spend some time getting the balance right by taking care of the spiritual side of life.

I look forward to catching up with you soon, either in the privacy of your home, at a local café or at my home in Geelong.

Cheers
